Take down policy

While the University of Birmingham exercises care and attention in making items available there are rare occasions when an item has been uploaded in error or has been deemed to be commercially or otherwise sensitive.

If you believe that this is the case for this document, please contact UBIRA@lists.bham.ac.uk providing details and we will remove access to the work immediately and investigate.

Erratum: Measurement of CP observables in $B^\pm \rightarrow DK^{*\pm}$ decays using two- and four-body D final states

The LHCb collaboration

E-mail: anita.nandi@physics.ox.ac.uk

ERRATUM TO: [JHEP11\(2017\)156](#)

ABSTRACT: The measurements of $A_{\pi\pi}$ and R_{KK} in $B^\pm \rightarrow DK^{*\pm}$ decays were incorrectly reported in the paper [1], due to a transposition of the systematic uncertainties. This error was present in the reporting of the individual systematic uncertainties, the correlation matrix, and in the calculation of R_{CP+} . In this erratum, all tables and final values that need correction are reported, with identical numbering and captions to those in the original publication. As the affected systematic uncertainties are substantially smaller than the statistical uncertainties there is no change to the interpretation of these results and the conclusions. The corrected CP observables are

$$A_{\pi\pi} = 0.15 \pm 0.13 \pm 0.01$$

$$R_{KK} = 1.22 \pm 0.09 \pm 0.02$$

$$R_{CP+} = 1.18 \pm 0.08 \pm 0.02$$

where the first uncertainty is statistical and the second is systematic.
